

How to Install Citrix Workspace

- 1) Go to <https://www.citrix.com/downloads/workspace-app/> and download the latest Workspace app release for your operating system.
- 2) Run the installer to install the client.
- 3) After downloading and installing the Citrix Application on your computer, perform the following actions to configure the program to connect to NLU's Citrix environment.
- 4) Launch Citrix Workspace; you should be prompted to enter your server address or work email when it launches.
- 5) Enter the address to the right and click the Continue button.
- 6) Enter your NLU username and password, and click the 'Sign In' button.
- 7) Wait for Citrix to log you in, after which you should see your available Citrix applications.
